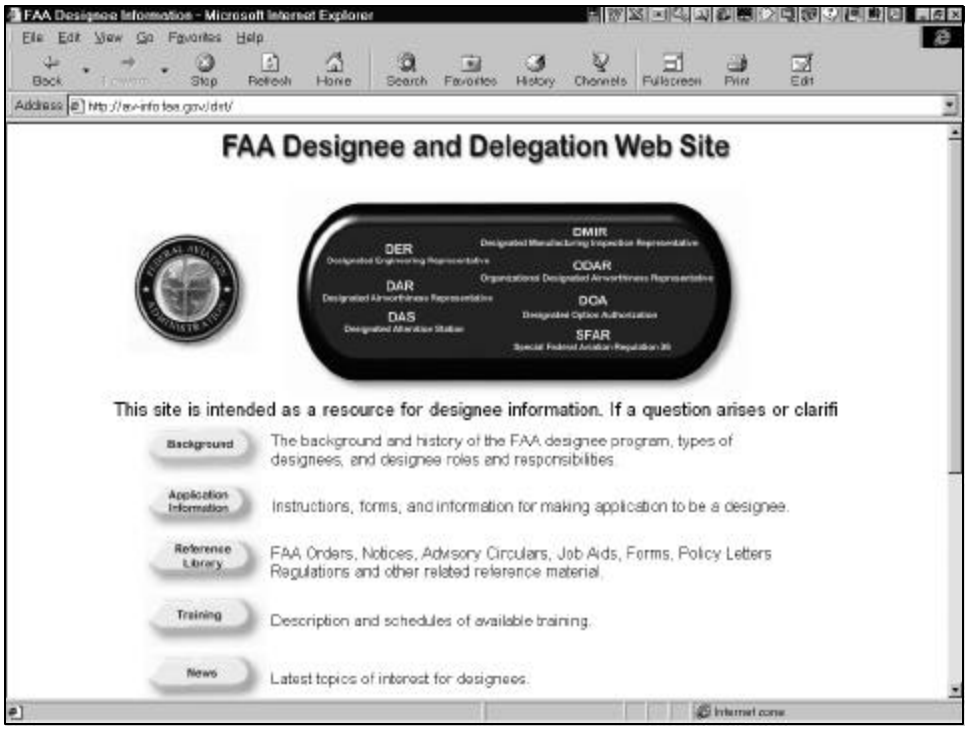
Designee Web Page

- We now have an FAA Designee and Delegation website to assist you. It contains:
  - Background/History
  - Application
  - Reference
  - Training
  - News
  - FAQ
  - Statistics
  - Related Initiatives



DER Information

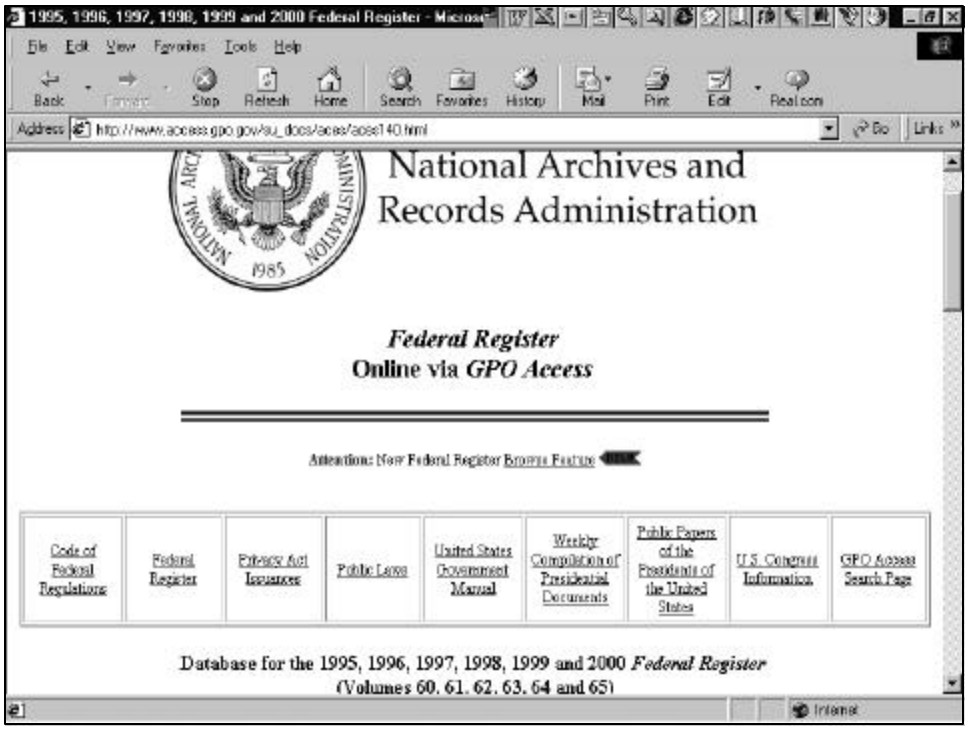
- Application Information (for new or expansion of authorization)
- FAA Form 8110-3 (Fill-in the Blanks)
- Guidance - Orders, Notices, ACs, Links to Regulations
- Training - Schedule, Invitation, Presentations
- Useful Links - STC Summaries, TCDS, Federal Register, FAA Academy

File Formats

- Word (.doc) and (.txt) files may be read using Microsoft Word or compatible word processing software
- (.pdf) files require Adobe Acrobat Reader. (A Free Acrobat Reader is available from www.adobe.com or FAA Homepage)
- (.exe) files automatically download when “opened”

Government Printing Office

- www.access.gpo.gov
- Access to Regulations
- Search Engine for 1994 and Later Federal Register
  - Airworthiness Directives
  - Rulemaking Activities
- Search or Browse specific FARs
  http://www.access.gpo.gov/nara/cfr/index.html



Regulatory Guidance Library (RGL)

- RGL - a set of searchable databases which contain regulatory and aviation product information. The RGL contains Federal Aviation Regulations (FARs) from 14 CFR in their current version as well as historical versions. It gives the user the ability to assemble certain FAR Parts as they existed at any date in the past or at any amendment level in the past. This is referred to as a Regulatory Basis. In addition, the RGL contains make/model information for all civil aviation products including all current type certificate data sheets.

Training
Welcome to the Regulatory & Guidance Library (RGL) home page! The RGL is a set of searchable databases which contain regulatory and aviation product information. The RGL contains Federal Aviation Regulations (FARs) from 14 CFR both in their current version as well as historical versions. It gives the user the ability to assemble certain FAR Parts as they existed at any date in the past or at any amendment level in the past. This is referred to as a Regulatory Basis. In addition, the RGL contains make/model information for all civil aviation products including all current type certificate data sheets.
To view any of the documents included in the RGL, select one from the following:
Federal Aviation Regulation
Federal Aviation Regulation
Make Model (TCDS)
Regulatory Basis
